

WINGS

WINGS - the touchscreen whiteboard frame

As digital touchpanel technology is entering more classrooms and conference rooms around the country, traditional writing surfaces are often lost to the teachers. Now we are offering the ultimate solution with the e-Box® WINGS whiteboard frame. A range of modular standardized products in three sizes, and two versions: WINGS-4 for one double-sided pivoting whiteboard surface on the left and right side of the touchpanel. WINGS-6 for 2 fixed whiteboard surfaces and 2 double-sided pivoting whiteboards, two on each side of the touchpanel. Equipped with the best motorized height adjustable mount on the market today, the e-Box®.

Simply press the buttons on the wired remote control to move the touchpanel up and down, both students and teachers can reach the full potential of the technology.

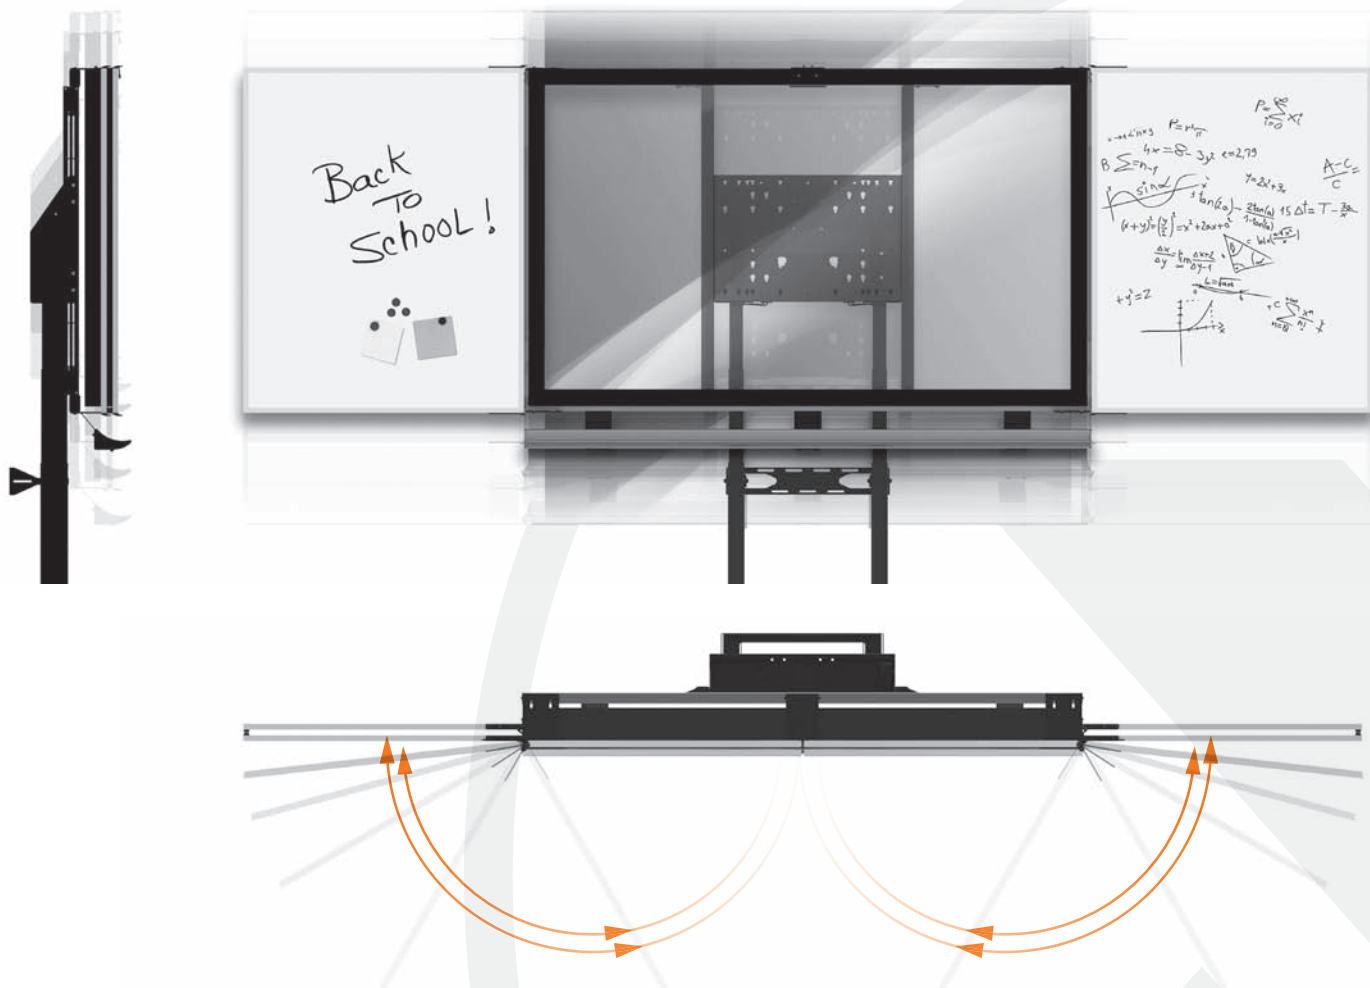

Grab the dry-erase markers and jot down your notes or the homework for the next day. The high quality enameled steel whiteboard surfaces can be erased over and over again but can also be used with magnets to turn them into a bulletin board or scrap book project.

Why?

- Combine touchscreen technology with traditional whiteboards in your classroom or boardroom
- Easy and safe to use motorized height adjust
- Best quality enameled steel whiteboard surfaces
- Compact design and easy to mount
- Three standard size frames for 60" up to 86" touchscreens

WINGS
